

Order Entry System Setup

SETUP

Setting up a partnership between the order entry gun and PC.

1. Download software from **GENERAL-TRADING.COM** help menu

If you are running **Windows Vista** or **Windows 7**, download **Mobile Device Center** from:
<http://general-trading.com/Help.aspx>

If you are running **Windows 2000** or **Windows XP**, **Activesync** 4.5 can be downloaded from:
<http://general-trading.com/Help.aspx>

2. Connect the cradle to a power supply and to the computer using the supplied USB cable
3. Insert the handheld gun into the cradle
4. Activesync or Mobile Device Center should recognize that the order gun is present and prompt you to create a partnership.
5. Once the partnership is created, you can synchronize the handheld with General Trading and begin sending orders

Note:

Firewalls will block communication and cause synchronization to fail.

Be sure to open up port 21433 on your Internet router and firewall software
